GRADUATE ENROLMENT DATA

DISTRIBUTION OF NEW REGISTERED GRADUATE STUDENTS (FULL-TIME AND PART-TIME)

BY DISCIPLINE AREA

**Instructions:**

A new graduate student is defined to be a graduate student who is new to a particular graduate program in the institution. This includes students new to the institution and new to graduate studies in the institution. The number of such new students should be determined for each term and then added up over the three terms to give the number of new graduate students in a given year. The terms should be considered in the order fall, winter, spring so that, for example, the 1970-71 year consists of Fall 1970, Winter 1971, Spring 1971.
